

Training Development (Paid Internship)

Cast Nylons Limited, located in Willoughby, Ohio, is the leading domestic manufacturer of Cast Nylon (polyamide 6) products. Our product lines consist of over 34 grades of cast nylon produced in standard shapes of sheets, rods, and tubes as well as custom cast or near net shape parts made to customer specification.

Cast nylon is typically used to replace steel, brass, or bronze in pulleys, sheaves, wear pads, gears, bearings, and bushings where noise and lubrication are a problem. Superior to many other grades of plastics, cast nylon continues to grow in popularity in the industrial, military, food and beverage, aerospace, and construction industries.

We currently have the need for a creative individual to assist us in creating our digital training/on-boarding programs. This person will be writing the scrip as it is told to them by a Senior member of our team, as well as creating the power point to support the training.

Ideal candidate would have the following skills:

- Excellent verbal and written communication skills
- Detailed
- Experience in embedding videos into power points as well as creating video training.
- Creative
- Professional yet personable
- Organized

This role is open to all Majors. Ideal candidates will be in Education, Communications, HR, or Marketing.

Hours: 25-40 per week – flexible during school hours

Please submit resumes to:
