Unger Program Visiting Guest Lecture

Smart City Presentation at the Maxine Goodman Levin College of Urban Affairs

Introduction to Urban Studies Class

On September 24, 2018 [Dr. Sasa Drezgic](#), Associate Professor at the Faculty of Economics at the University of Rijeka was a guest lecturer in Beth Nagy's UST 200 Introduction to Urban Studies class. The visit was organized as part of the ongoing work of the [Unger Program](#) in cooperation with the [University of Rijeka Faculty of Economics and Business](#).

Dr. Drezgic provided students insight into *Smart Cities from the European Perspective*. He shared with students an introduction to smart cities as it relates to concepts of smart, sustainable and resilient communities, discussed varying definitions of what a smart city is including that currently there is no universally accepted definition, but rather a range of definitions, which tend to highlight the many facets of the concept.
