

Be part of a statewide movement to stop hunger through service

We're looking for passionate people.

People who want to make an impact in local communities as they recover from the economic devastation of COVID-19. People who want to gain valuable professional experience, earn a living allowance and money toward tuition or student loan debt, and build their resume. People who want to be part of a new, national pilot to stop hunger through service.

We need your help to help more people in new ways.

We have one-year, full-time positions available throughout Ohio. As a COVID-19 Critical Response AmeriCorps VISTA, you will work behind-the-scenes to help us raise more funds, recruit more volunteers, share more stories, design and implement better programs, prevent more food insecurity, and improve more lives.
