PUBLIC SERVICE. LEADERSHIP. CHANGE.

## ***GET THE REAL ESTATE ADVANTAGE YOU NEED!***

The Graduate Urban Real Estate Development and Finance certificate program is designed for professionals in the fields of real estate, real estate law, planning, economic development, banking, and architecture who were trained in other fields and would like to update and strengthen their knowledge and practice of urban real estate development and finance. Evening classes and online classes are available, and students can complete the program in as little as one year. Over 20 guest lecturers from the Cleveland real estate community share their war stories, give up-to-date examples of successful projects, and also provide excellent networking opportunities.

For existing CSU graduate students, the real estate certificate fits nicely as a specialization in your major or degree program.

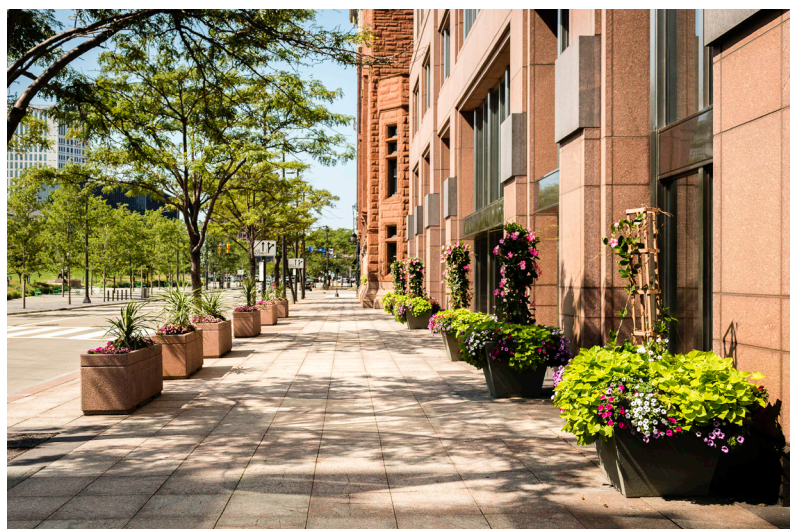

The program is a mix of textbook learning and practical application: students complete comprehensive studies of the market demand and financial feasibility of two or more real estate projects of their own choosing, and compete for prize money at our fall and spring real estate tournaments.

- UST 610: Urban Development Process/Market Analysis
- UST 623: Urban Development Finance and Applied Real Estate Project
- FIN 610: Real Estate Finance
- FIN 612: Real Estate Investments

Classes start August 22, 2020
