

# Undergraduate Minors

## What is Urban Affairs?

The Levin College of Urban Affairs brings people, policy, and community together to create solutions for a better future. Through the interdisciplinary study of cities and regions, we observe how communities organize, plan, manage, evolve, maintain, govern, and behave in a global economy. We prepare our graduates to work in the public, private, and nonprofit sectors and take the lead in the revitalization, preservation, and sustainable development of America's cities. At the Levin College of Urban Affairs, we are "Changing America's cities, one graduate at a time."
